- mainly a spare time activity in 1970-2000  
 - more a professional activity since 2000

The topics in these management systems are mainly

- Development - Innovation & Creativity
- Organisation & Leadership
- Coordination & Communication
- Learning & Competence development

- more than

- Analyses & Investigation of problems (calculations & verifications)
- Planning & Performance Control (classic project implementation)
- Information- & Document Control (classic knowledge management)

## Development

- Renewing?
- Growth?

Innovation & Creativity - easy said however difficult to do

A lot of tools, methods and models - however beneficial?

## Working method for development processes

*What is the idea about?*

*How to organise the development?*

Interesting parties – *normal the challenge*

- Owners
- End users
- Investors
- Involved parties
- Surround
- .....

Multifunctional matter

## *A matter of curiosity and learning process*
